

San Maurizio d'Opaglio, 31/01/2019

REACH Regulation (CE) no. 1907/2006

(Registration, Evaluation, Authorization and Restriction of Chemicals)

Giacomini S.p.A. company, manufacturer of components for heating, cooling and sanitary distribution systems, located in Italy, San Maurizio d'Opaglio (NO), via per Alzo no. 39, whose design and production processes comply with the requirements of the UNI EN ISO 9001:2015 standard,

REPORTS that

since June 27th 2018 lead, CAS no. 7439-92-1, EC 231-100-4 no, has been included into the SHVC List (Substances of Very High Concern),

Substance	CAS/EC number	List	Date of inclusion
Lead	CAS: 7439-92-1 EC: 231-100-4	SVHC	27 th June 2018

The copper alloys that we use, contain lead in concentrations higher than 0,1% (p/p).

Giacomini's products may contain such substance in concentrations higher than 0,1 % (p/p), depending on the presence of copper alloys (brass, bronze).

The introduction of lead into the Candidate List does not involve modifications in the conditions of safe use of our products.

The updated candidate list is available at the following link
